

Upgrade your lighting system, and it's you who looks a whole lot brighter.

The GE UltraStart® Watt-Miser® T5 system can save you \$54 per fixture.

This system features a 30,000-hour long rated life, reducing your energy costs and saving you \$54 per fixture over the life of the lamp.*

This TCLP-compliant lamp could meet EPCAct qualifications, so your company could be eligible for significant funding incentives.

Make a contribution to the environment and your company's bottom line by using less energy. Switch to the new UltraStart Watt-Miser T5 system, only from GE.
